FROM THE EDITOR - FRANK BAKER

Welcome to the current issue of the Spur Line. I had hoped to have the Spur Line forum up by now, but recent issues have consumed a considerable amount of my time. For those not up on the move to utilizing a forum in place of the electronic issue, here is the general plan.

As you may guess, the Spur Line consumes a lot of time. It is also difficult to get information in a timely manner and sometimes I forget to take photos of everything due to the confusion of the moment at the meets. By implementing a forum, we will have a much broader selection of contributors, like everyone that is a member in the Arizona division. You will be able to discuss or show, in an

open forum style, your interest in the hobby. You will be able to develop informative clinics that everyone can see, share and enjoy.

As you all may know, several changes took place at the last meet. The new Division director is Ver-ryl Fosnight; the new Superintendent is Allan Montgomery. Please welcome them when you see them in Sun City. Our good friend and contest chairperson, Chuck Hammond and his wife Dierdre moved to Texas to be nearer to their grandchildren. So, Allan Montgomery, as Superintendent, is looking for replacements. Gordon Geiger has also asked to be replaced as Membership Chair. Sounds like there will be a portion of the next meet to discuss filling these positions.

As I mentioned earlier, I have had several other issues occupying my time, so this is a small issue. I hope that you enjoy the issue and look forward to meeting everyone at the March Meeting in Sun City.

SPUR LINE NEWSLETTER

The "SPUR LINE" is the official publication of the Arizona Division, Pacific Southwest Region, National Model Railroad Association (NMRA), and is published three times a year in Scottsdale, Arizona. The "SPUR LINE" is available to all members of the NMRA who live in Arizona.

RESPONSIBILITY: Except for official reports, all opinions are those of the authors, and do not necessarily represent those of the Arizona Division or its parent organizations.

SUBMISSIONS: Contributions of articles on any railroad or model railroading topic of interest to the membership are welcome. There is no compensation, but published articles can be credited to the NMRA Author Achievement Certificate. If you are interested in submitting articles, event information, or other information of interest to the members of the Division, please follow these guidelines:

1. Preferred method is by email to the Spurline editor with the submission attached as a word text document.
2. Keep in mind that submissions may be edited for length or formatting, or not used, at the discretion of the editor.
3. Submission deadlines for publication are: **December 1st., April 1st. and July 1st.**

Thousands of negatives still need

your positive support.

So do the thousands of plans, photos, and slides from our Kalmbach Memorial Library that we're working to digitize so that members can access them from their own computer. The good news is that the scanning is well underway. The better news is that our image library is even larger than we thought!

Which is why we still need your help. The more funds we receive, the more images we can make available.

If you haven't contributed to the Diamond Club, do it now:

Silver Level – Contribute \$75 and receive a silver 75th Anniversary commemorative pin and have your name listed in *NMRA Magazine*.

Gold Level – Contribute \$750 and receive a gold 75th Anniversary pin, a golf shirt with the Anniversary logo, and have your name listed in *NMRA Magazine*.

Diamond Level – Contribute \$7,500 and receive a diamond-and-gold Anniversary pin, a golf shirt and sweater with the Anniversary logo and your embroidered name, a print of the NMRA's 75th Anniversary commemorative painting, and have your name and photo printed in *NMRA Magazine*.

Make a contribution that will make a difference for decades. Visit www.nmra.org/diamondclub or call HQ at 423-892-2846 to contribute.

 FOR DOOR PRIZES AT THE NOVEMBER 9TH MEET IN TUCSON.

DIRECT FROM THE DIRECTOR – VERRYL FOSNIGHT

I hope you all had pleasant holidays. We had a house full for them at our house this year, but now it is back to model railroading.

On the Wyoming Division I have been gathering parts and materials for signals, and in February we started the installation of an ABS system over the 1,006 feet of double track mainline. Dennis Drury, *who I meet at the PSR Regional Meet in Scottsdale last fall*, is guiding our signals installation. He owns Ramden Enterprises who makes signal boards that control the adjacent signal based on the occupancy of the next two blocks. These boards feed the current to green, yellow, or red LED signal bulbs. The occupancy is detected by a cpOD, Centerpoint Occupancy Detector, a current sensing detector for each block. I have wanted ABS for the Wyoming Division for years, from when I was still just planning it before we started construction, but signals and the necessary electronic control systems is an obscure art. The more I read about the various systems available, the more I realized I needed to talk to someone face to face to understand the elements involved and just how to wire them to our DCC system. For me, Dennis was that man, and I met him at the PSA Regional Meet in Scottsdale—*reason enough to join and belong to an NMRA group*.

If you belong to the Arizona Division of the National Model Railroad Association, you may identify with this experience. If you are reading this, and you are not a member, come to our next meeting in Sun City next to Phoenix, where you can join for a year at a special starting rate and also get a free admission to that meet. You may be surprised and delighted at the information you take away, or the contacts you make—contacts, like I made with Dennis.

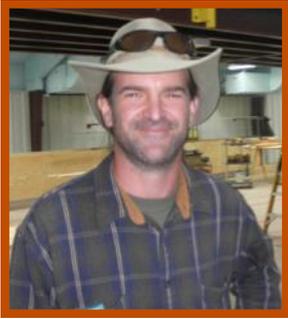

Our next meeting will be in Sun City/Phoenix, Saturday, March 12, 2016, and we expect another good meet put on by David Irick and that group of modelers. The Arizona Division Website at <http://www.azdiv-nmra.org/Meets/Meets.html> gives details of activities. It will be at 9 AM at the northeast corner of 107th Avenue and Peoria Avenue at the Fairway Recreation Center. Bring your models for the contest, watch for the clinics for interesting history and techniques, shop the swap meet, and for the ladies, there is the Railettes and their own activities in their own room. But more important is the day spent with other model railroaders, old and new friends, to socialize and to pick up handy hints for our own layouts.

At that meet I want to propose we have a help table where you can ask for help on a modeling problem by filling out a slip to be posted on a board at the meet. Other modelers will be urged to call or text you on your cell phone at the meet during lunch or a break in the activities to hook up with you immediately to discuss your problem.

The November 21, 2015 Arizona Division Meet in Tucson was a fine affair with good attendance. The new officers were installed, and numerous awards given out for service. The clinics were interesting, as always, and a number of good models were shown in the contest room. Hats off to the Tucson presenters led by Richard Dick.

Chuck Hammond stepped down after many years of service to the Division as the Contest Chairman, as has Deidre Hammond as Railette co-chairwoman. They are moving to Texas. We will miss them and their efforts for the Division.

See you in Sun City in March,

FROM THE SUPERINTENDENT – *ALAN MONTGOMERY*

I love this hobby. I threw my hat in the ring for Superintendent because I want to help this hobby grow. I have a few ideas that I think will be fun for everyone that comes to Arizona Division meets. My hope is that we can attract new members, learn new skills and make new friends.

In the next year, several friends and I will be building an N-Scale module to bring to meets. The idea is to build a faithful representation of the Morenci mine in eastern Arizona. This is where NMRA members come in. If you like to scratch build, weather, or do scenery; I welcome others to help make the layout a truly Arizona Division effort. It's high time we start running trains at our meets! If you are interested in contributing, please, give me an e-mail.

I would like to try a workshop for the summer meet in Rimrock. A simple start would be to weather a freight car with chawks to take home. Either bring a car from home or buy a new one at our conveniently placed swap meet room. If you are an old hat at this, please share your experience and help someone with their first attempt. I think there is something to be said for coming home from a meet with a project that you did yourself. Again, e-mail me if you would like to help.

See you in Sun City,

CHIEF CLERK & PAYMASTER REPORT

BY: JESSE POOLE

The Nov 21, 2015 Meet in Tucson provided a net profit of \$290.00 on a total income of \$590.00 as shown in the Table below. There were total of 61 attendees which were comprised of 56 NMRA members (three of which were presenters) and 5 guests. This compares to 77 attendees at last years' Tucson meet, however, there were 20 guests/visitors at that meet which means that the number of NMRA members in attendance was about the same. The lower number of attendees has been attributed by some to the proximity of this event to the Thanksgiving weekend.

The primary source of income from the meet was the door receipts plus \$10 from the sale of a swap meet table. The direct expense was the cost of the venue and insurance from the NMRA for the event. There were indirect costs for the period that were noted at the last meeting and are associated with purchase of name badges, trophies, and mailings which totaled \$574.95.

An additional expense for \$305.36 was paid to the PSR2015 Convention for the purchase of the remaining pins and patches not sold at the event. Most of this money will be effectively returned when the proceeds of the event are sent to the Division.

The current checkbook balance is \$5123.57 which is a net deficit of \$648.47 from the last report.

January 2016 Achievement Program Report / Tucson Meet

The November 21 Arizona Division Meeting in Tucson brought in 6 Merit Awards from the contest entries. It was a good showing by the builders.

The builders and their Merit Award winning models are:

Alan Olson built a MoW car (something not new for him) that scored 107 points out of 125 to win Best of Show. It was a Jordan Spreader.

Stephen Drees built a structure (Pidgeon Hunting) that scored 103 points in the Structure, Open Category to earn him a Merit Award.

Stephen Drees Robinson's Electric building scored 101 points to win a Merit Award.

Werner built a Depot from Eureka, CO to earn his Merit Award for the contest with 89 points.

Tim Gilliland earned a Merit Award with his Last Chance Gas Station. It scored 88 points.

Tim Gilliland earned another Merit Award with his Pickle Factory. It also scored 88 points.

I will bring these Merit Awards to the Phoenix Meet in March.

These were excellent models. Keep up the good work.
