## FROM THE EDITOR - FRANK BAKER

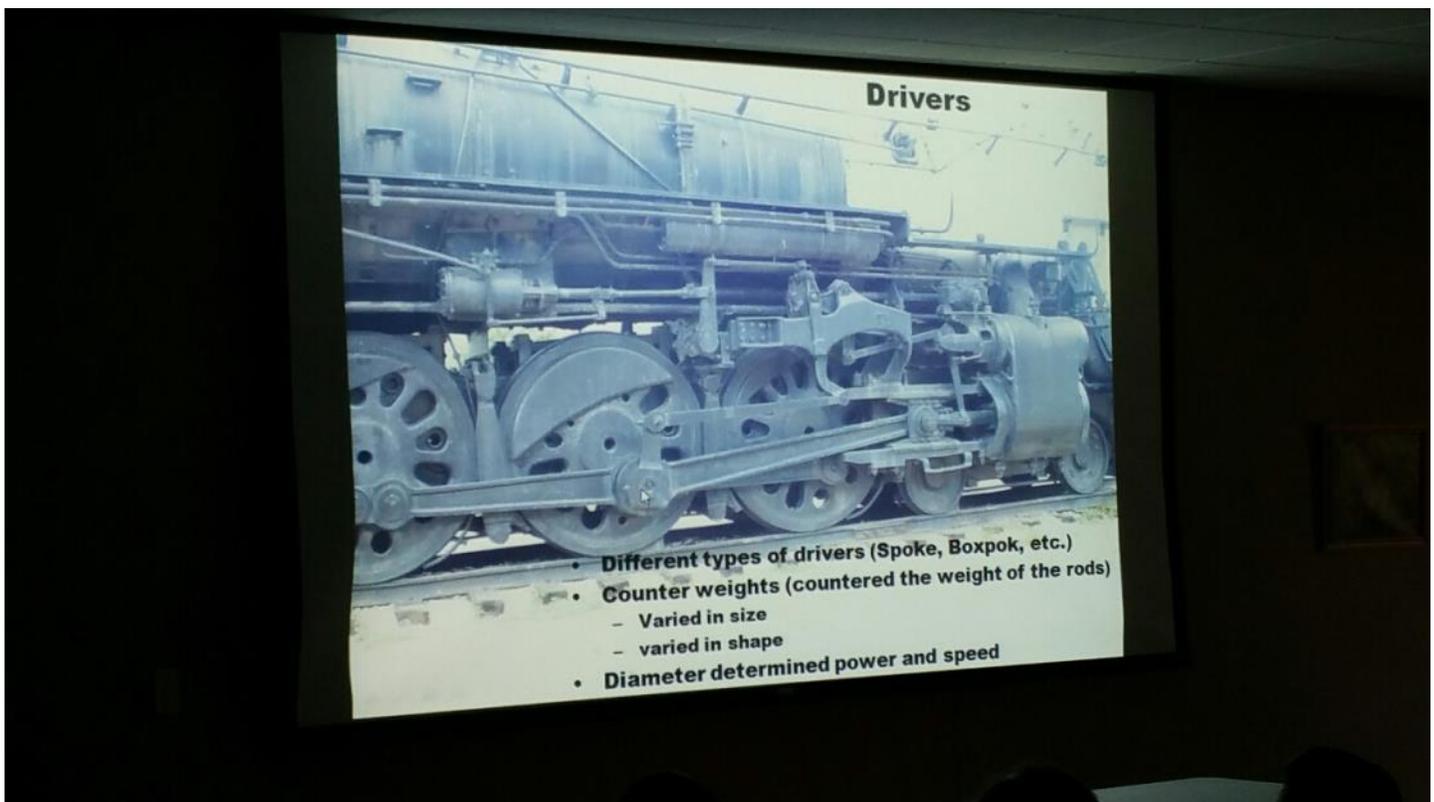

Sorry for the late delivery of this issue of the Spur Line. The Spur Line forum is up and operational ( well almost). We now need to get everyone signed up to make it truly functional. There are several thread issue that have yet to be uploaded by Ben Sevier, but progress is being made. We will discuss the forum in more detail at the meet in Rim Rock. It will take some time for everyone to get used to it, but it should serve as a primary communication tool for the NMRA Arizona division.

Our contest room has a new leader and he is being trained (no pun intended). Some information from the Sun City meet is missing and we will try to update you as soon as possible. You will see that Allan Montgomery has a unique idea that he would like to do for clinics. I think everyone will enjoy participating in his clinic. Let's get behind Allen's effort to enhance the clinic format.

See you all in Rim Rock and at Verryl's BBQ right after the meet.

Frank

## SPUR LINE NEWSLETTER

The "SPUR LINE" is the official publication of the Arizona Division, Pacific Southwest Region, National Model Railroad Association (NMRA), and is published three times a year in Scottsdale, Arizona. The "SPUR LINE" is available to all members of the NMRA who live in Arizona.

**RESPONSIBILITY:** Except for official reports, all opinions are those of the authors, and do not necessarily represent those of the Arizona Division or its parent organizations.

**SUBMISSIONS:** Contributions of articles on any railroad or model railroading topic of interest to the membership are welcome. There is no compensation, but published articles can be credited to the NMRA Author Achievement Certificate. If you are interested in submitting articles, event information, or other information of interest to the members of the Division, please follow these guidelines:

1. Preferred method is by email to the Spurline editor with the submission attached as a word text document.
2. Keep in mind that submissions may be edited for length or formatting, or not used, at the discretion of the editor.
3. Submission deadlines for publication are: **December 1st., April 1st. and July 1st.**

## Thousands of negatives still need

**your positive support.**

So do the thousands of plans, photos, and slides from our Kalmbach Memorial Library that we're working to digitize so that members can access them from their own computer. The good news is that the scanning is well underway. The better news is that our image library is even larger than we thought!

Which is why we still need your help. The more funds we receive, the more images we can make available.

If you haven't contributed to the Diamond Club, do it now:

**Silver Level** – Contribute \$75 and receive a silver 75th Anniversary commemorative pin and have your name listed in *NMRA Magazine*.

**Gold Level** – Contribute \$750 and receive a gold 75th Anniversary pin, a golf shirt with the Anniversary logo, and have your name listed in *NMRA Magazine*.

**Diamond Level** – Contribute \$7,500 and receive a diamond-and-gold Anniversary pin, a golf shirt and sweater with the Anniversary logo and your embroidered name, a print of the NMRA's 75th Anniversary commemorative painting, and have your name and photo printed in *NMRA Magazine*.

**Make a contribution that will make a difference for decades.** Visit [www.nmra.org/diamondclub](http://www.nmra.org/diamondclub) or call HQ at 423-892-2846 to contribute.

## DIRECT FROM THE DIRECTOR – *VERRYL FOSNIGHT*

The main news of the Pacific Southwest Region is the working out the details of the PSR Forum, an online information center for the whole region. It will be used to announce information about meetings, conventions, and a place to post questions, especially about modeling, and to read answers and suggestions. The Forum is meant to replace the newsletter each Division puts out (*The Spurline* in the AZ Div). It would shift the great amount of work from one person, the editor, to anyone or everyone in the division and thus foster more communication, friendships, and help for all in the Region.

The Forum probably will have a top page available to guests or non-members. They can see part of what is inside but not post. The rest will have a restricted section for NMRA members. The pros of restricting part of the Forum is to encourage non-NMRA members to join and thus fund the NMRA. Conversely, a completely open Forum would spread the word about NMRA more to make it more attractive to join. Thus non-NMRA members can get info about the hobby, the Region and the Divisions, see the help within the NMRA and perhaps be inspired to join the NMRA.

The Forum is up and running but very preliminary. To see it go to the PSR Region site <http://www.psrnmra.org/> and click on the "Forums" tab. This takes you to the top level of the Forum, the level for Region news and information. There will be 4 sub levels or sub forums, one for each Division. You must login to get to them. There are planned to be a few major headings within the Division Forums. Clubs would have a page within their Division's pages.

There is a consensus building on the PRS Board that all 4 Division Forums should be open to all logged-in members, so an Arizona Division member can read the other forums. This opens it up for more inter-Division communication and help, and in southern California solves the problem of members who are active in more than one division, i.e., belong to multiple clubs.

Frank Baker has suggested a few topics or pages for the AZ Division Forum: **Calendar** (of model railroad events thru the year and can be added by any member); **Officers** (a sub thread where the division officers have to communicate ideas, regional meets, etc.); **Mailbag** (a general thread where members can post); **Social Programs** (discussion pages(s) of programs with scouts, schools, etc..) Club News (Posting by NMRA and non-NMRA clubs), **Marketplace** (place to sell/buy- member to member only – no hobby shops, unless they are an NMRA member and donate to the division) (they could be included in a hobby shop directory) and finally, **Meet results** (contest and meet information from most recent divisional meet. I would add a **Help Desk** to this list for members to post problems or how-to questions and get feedback.

Each Division needs a moderator volunteer. The moderator's job is to monitor the Division forums, watch what is being posted, take care of problems, and organize the initial structure of that Division's pages or topics. If you are interested, write me or Frank Baker for more info. I imagine the job to be like owning or moderating a Yahoo Group. Once it is set up it requires almost no management. I have owned 6 or 8 Yahoo Groups, and never have anything to do other than an occasional post to push a discussion back into a rational direction.

**This year's Regional convention** is being planned and hosted by the Los Angeles Division of the PSR. It will be the "LA Junction," from September 21-24, 2016. It will be held at the DoubleTree Hotel Los Angeles – Westside and is central to many of the activities, tours of some of the finest layouts in Southern California, excellent behind the scenes tours of prototype railroad facilities, a selection of clinics and more. Plan on attending to meet new model railroaders, see old friends and share a common enjoyment of the hobby. The link is on the PSR site <http://www.psrnmra.org/>

**FROM THE SUPERINTENDENT – ALAN MONTGOMERY**

The June meet will be a bit more hands on for the participants. Two things to keep in mind as the meet draws near. First we will be having a freight car weathering workshop. Bring a freight car that you want to weather, or buy one at the swap meet. We will be using Pan Pastels. If you haven't used them before, don't worry. I have chosen this product because it is easy, clean and I get great results. For those of you that have already mastered this, please plan on assisting those who want to learn. This way everyone should get answers to their questions in a timely manner. I will set up my compressor and airbrush out in the parking lot to seal your cars with dull coat.

Second, bring your brains! We will be having a trivia contest, all things railroading. Most of us have read quite a bit about our favorite hobby, now it's time to be rewarded for your efforts. Answers will be written down on a form and the results will be tallied and the winner announced at the end of the day.

One thing I would like to see happen in the Arizona Division is to have trains running at these meets. Here is my plan. I have drawn up a 2 1/2 by 12 foot module representing the Southern Pacific Morenci Mine. For those of you who aren't familiar with this area, google earth it and follow the tracks! I think you see why I choose this as a fun project. Since I am in HO, I am enlisting the help of N scalers in the state. If you enjoy scratch building, scenery or weathering, please give me a holler. I would like this to be the result of all of our skills. The end result will be a challenging switching puzzle that will showcase our skills, Arizona beautiful scenery, and a unique railroad that has been in business for over a hundred a twenty years.

See you all in June!

Allen Montgomery

**FROM THE AP CHAIRMAN—DON STEWART****April 2016 Achievement Program Report**

The March 12 Arizona Division Meeting brought in 3 Merit Awards from the contest entries.

The builders and their Merit Award winning models are:

- Chuck Schwartz entered a Midwest/Pv Elevator Complex that earned 113 points out of 125 to win Best of Show.
- Alan Olson built a MoW boom tender car (something not new for him) that scored 105 points. This was in the Rolling Stock Open Category.
- John Lovely built a flat car with log bunks that scored 89 points in the Rolling Stock Open Category to earn him a Merit Award.

I will bring these Merit Awards to the Summer Meet in Rim Rock. A couple other models were shy of the mark of 87.5 points and with a few more details might contend for a Merit Award.

These were excellent models. Keep up the good work members.
